

Driven by an offensive mindset and a relentless pursuit of vulnerabilities in systems. I specialise in identifying unconventional attack vectors and 'holes' in security architectures. Primarily self-taught and motivated by continuous independent research, I strive to stay up to date and master the latest offensive security methodologies and tools.

TECHNICAL EXPERIENCE

Penetration Tester / Red Teamer

ALIANDO

07 2024 — Present (2 years)

Valencia, España

- Experience in Audits/Penetration Testing/Red Team Exercises.
- Identification and exploitation of vulnerabilities in infrastructure, applications, and networks. Including Social Engineering Attacks
- Handling tools and methodologies for penetration testing.
- Risk analysis and generation of technical reports with recommendations to mitigate threats.
- Client-Facing Delivery: Led technical briefings and vulnerability walkthroughs for customers.

System Administrator / IT Services

Polytechnic University of Valencia

09 2023 — 08 2024 (1 year)

Valencia, España

- Experience in warehouse and inventory work
- Installation of operating systems and servers in the UPV's ASIC

Content Creator

Youtube and TikTok

12 2025 — Present

- Starting out as a creator of offensive cybersecurity content on YouTube and TikTok!

EDUCATION

Computer Engineering, *Polytechnic University of Valencia*

2021 — Present (All I have left is my final degree project)

Technical Baccalaureat (BTEC National Diploma), *Logroño - España*

2019 — 2021

CERTIFICATIONS

BurpSuite Certified Practitioner (BSCP), *PortSwigger*

Junior Pentester, *TryHackme*

Test of English Certificate (B2), *Oxford*

SKILLS

Advanced knowledge of Active Directory , WebApps and Cloud pentesting.

Experience in social engineering exercises, android apps pentesting,reverse engineering, binary exploitation, malware development, and EDR/antivirus evasion

Python and Bash Scripting (more in my GitHub)

ACTIVITIES

Active practitioner on cybersecurity platforms : HackTheBox, Offsec, THM, Pwn.College & PortSwigger (more in my portfolio)

2021 — Present

Final degree project on Web Pentesting on the websites of the Polytechnic University of Valencia

Experience in preparing and presenting talks on cybersecurity at conferences and specialised events.

Member of the independent Cybersecurity group 'N3thical' at the UPV.

Attendance at security conferences: RootedCON, Navaja Negra and Hack0n.
